[www.gfra.gr](http://www.gfra.gr)

Ios Eco-Villas is a complex of four separate fully equipped studios from 50 to 80 sq. mtrs each. The plot is on the beach of Aghia Theodoti at the East side of Ios island, ten minutes drive from the port.

The studios, with one or two bedrooms, all have an indoor and outdoor living room and kitchen. An outdoor jacuzzi and the large private surrounding space provide the feeling of luxury and privacy.

The studios are made with natural materials and they are designed as a low emission complex, using renewable sources of energy for their needs.

The excellent beach of Aghia Theodoti is right in front of the plot and each studio has its own pergola on the beach.
